PROFESSIONAL SUMMARY

Full Stack Software Developer (MERN) | Building Scalable Web Applications & APIs

Full Stack Developer specializing in **MERN stack** with hands-on experience building and **deploying** scalable **web applications**.
Strong in **API development, authentication systems, and real-time applications**, with practical exposure through **freelance** and **personal projects.**
Skilled in **React, Node.js, MongoDB,** and **cloud-based deployment**.

EXPERIENCE

Freelance Full Stack Developer (MERN)

Client Project – DriveKhata (Car Rental Management System) *Mar 2026 – Apr 2026*
https://car-rental-app.vercel.app/ Live Demo | https://github.com/car-rental-app GitHub

- Developed a **full-stack car rental management system** using **React, Node.js**, and **Express.js**
- Designed and implemented **RESTful APIs** for managing **bookings, users, and vehicle data**
- Built **JWT-based authentication** system for secure **login** and **protected routes**
- Implemented **booking logic** with **date validation, pricing calculation, and status tracking**
- Integrated file upload system using **Multer** and **Cloudinary** for document management
- Enabled Excel export functionality using **XLSX** and **FileSaver.js** for reporting
- Developed a **responsive dashboard UI** with optimized user experience
- **Deployed** application using **Vercel** (frontend) and **Render** (backend)
- Delivered a **paid** freelance project **(₹15,000)** ensuring client requirements and usability

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++, SQL
Frontend: React.js, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB, Relational & NoSQL Databases
Systems & Networking: TCP/IP, DNS, IP Addressing
Tools: AWS, Azure, Git, GitHub, Postman, Vercel, Render
Systems: Operating Systems, Networking (TCP/IP, DNS)
Core Concepts: Data Structures & Algorithms (Basic), OOP, Problem Solving, Distributed Systems (Basic), VS Code

TECHNICAL PROJECTS

Influx – EV Charging Web App: *Personal Project | 2025*
https://influx-project.vercel.app/ Live Demo | GitHub : influx-project GitHub

- Developed a **full-stack web application** to fetch and display **real-time EV charging** data using **APIs**
- Built responsive UI using **React.js** and integrated **REST APIs**
- Implemented error handling and optimized API performance
- Designed scalable architecture for **real-time data updates**

Chat Sphere (or your project name) – Real-Time Chat Application *Personal Project | 2025*
https://mern-chat-.vercel.app/ Demo Link | https://github.com/mern-chat GitHub

- Developed **real-time chat application** using **WebSocket's** (Socket.io)
- Implemented user authentication and session handling
- Built **REST APIs** using **Node.js** and **Express**
- Used **MongoDB** for storing messages and user data
- Enabled **real-time messaging** and **online/offline** user **tracking**
- Optimized performance and handled real-time communication bugs

DigiDine – QR-Based Smart Restaurant System: *Academic Project | 2023*
https://digidine535.netlify.app/ Demo link | https://github.com/Digi-Dine GitHub

- Built a **full-stack QR-based ordering system** using **React.js** and **Node.js**
- Developed **REST APIs** for order management and **backend processing**
- Designed database schema using **MongoDB**
- Implemented **end-to-end** functionality for **real-time user interaction**

PROFESSIONAL SKILLS

- **Troubleshooting** and **debugging** web applications and backend APIs
- Strong understanding of networking concepts (**TCP/IP, DNS**)
- Experience in **diagnosing** and **resolving application-level issues**
- Familiar with system-level problem solving and performance optimization
- Effective **communication** skills for **technical discussions** and **collaboration**
- Ability to analyze issues, identify root causes, and implement solutions
- Understanding of software development lifecycle (**SDLC**) and agile practices

EDUCATION

Bachelor of Engineering in Computer Engineering *Oct 2022 – June 2026*
MIT Arts, Design and Technology University, Pune *CGPA: 7.2*

Diploma in Computer Science *Nov 2019 – July 2022*
N.M.S.S. School, Burhanpur

CERTIFICATIONS

- **AWS Academy Graduate -** AWS Academy Cloud Foundations
- **Certification course of Python programming**
- **Networking Basics -** Cisco Networking Academy program
